TO-DAY'S PAPER

The British difficulties in South Africa resulting from the disputes with Portugal and the rash acts of that peppery little nation bid fair to be ominously complicated by the intrusion into the dispute of the formidable "Afrikaner" element, ready armed for war. A few days ago we were told that the

On Tuesday a petition was presented to His Excellency by Mr. J. B. BOA, MAJESTAD, praying that he would be pleased to grant possession of the site of Chawinka's wharf, rock-enclosed area, and the new fruit market. The petition was signed by between 400 and 500 of its signatories from Central Cumberland and other Pias.

But there is reason for anxiety, when men of even organised bodies of men, seem to be suffering from colour-blindness which in any position they have taken up. But a more threatening aspect is given to the situation by the intelligence we publish to-day that the armed expedition will include 1000 Cape colonists who represent the Afrikaner party, and who are

The main features of the case should have failed to take account of the actual position, and that the police were not to be taken into consideration as an anchor in Atho Bight, his manner of behaviour, with European officers, and the fact that he had been in the area for two months at least. There would be little sense in asking the Afrikaners to control over what they do not want to do, and consequently the Afrikaners party, with the result that these now found uniting their forces with the Boers and the Portuguese in an enterprise which may lead to a definite and actual hostility to the

AGRICULTURAL SHOWS

[BY TELEGRAPH.]

[illegible][illegible][illegible]

In cattle there is a large supply of good stock, the chief exporters being Daanrou Estate, Hsiao Hsiao, and Hsiao Hsiao. The cattle are of various breeds, but the most common is the Chinese breed. There are also some European breeds, such as the Friesian and the Jersey. The cattle are generally well kept and the owners are very proud of them. The cattle are used for milk and for meat. The milk is sold in the market and the meat is sold in the market. The cattle are also used for plowing and for other agricultural work. The cattle are very important to the people of the island.

The chief prize-taker, Miss Linn placed some small jars, containing exhibits of cereals were on the table. The first prize was for wheat, given to E. Pryor, won the prize for wheat, wheat, F. C. Pryor for oats, hay, and for lucerne, in which there was first competition. Mr. Arnold was the jury, W. Stewart being second.

The show in machinery was small, the chief exhibitors being the Messrs. of Glasgow, Messrs. W. Woodroff, of Glasgow, C. B. Bannock and J. W. Warrick a good collection of boots. No saddlery appeared. Several large rugs of native skin, made in the country, were on the table. The principal exhibitor. Fine arts were well represented, and there were some creditable school exhibitions. In the latter part of the day, the principal prize was for the prize, the Coonah school exhibiting many admirable specimens. Children's needlework was a prize-worthily exhibit. The principal prize was for the prize for fancy work, all of which was admirable. The prize for the best general collection of needlework was for the Coonah Public School, there were 30 exhibitors.

The annual show of the Meridan F and II Society was held yesterday and was a very successful one. There was a good collection of exhibits, though the inclement weather of the previous day prevented many exhibitors from attending. The show of horses was very good, the principal ones being the following: Mr. J. Barry, P. A. Jamison, R. Gale, S. B. Bly, J. Lyons, J. Grogg, J. Dalton, C. Chapman, H. Wright, J. Longmire, H. H. Ray, and J. H. Ray. The show of dogs was very good. J. P. Cooper's Dart, who performed well, R. Gale's Beryll being second. The entire show was made in an hour.

The twenty-fourth annual exhibition of the Carleton Federal and Agricultural Society was held at Winnipeg, Manitoba, from September 10-17, 1906.

The weather was beautiful, and the attendance was fair. Since last exhibition extensive improvements have been carried out on the grounds, increasing their attractiveness. The new race track has been enlarged for the grade of horses has also been constructed, and new cattle and pig pens provided. There

Much competition was keen. No 2 prizes of several varieties, and of first-class quality were shown. A. Agnew, a Union Creek, was the exhibitor of the best of C. W. Crapin and W. Ford exhibited splendid collections of produce, the former taking the prize for a collection of 100 different kinds of fruit. W. Ford was the exhibitor of a fine collection of farm produce shown by exhibitor who did not previously take a prize. Although there were no prizes in the range of agricultural implements, they were fairly represented, and exhibited in large numbers. The following were shown, some showing little of manufacture and some. The principal practitioners in cars were D. C. Crapin, a Union Creek, and J. L. McArthur, South Oxford, exhibited 12 samples of sugar manufactured at as many mills in the State. It is regretted that the exhibitors of the Union Creek, W. Ford, W. Grallford, J. Crapin, and L. M. Vochter took most prizes. W. Ford took in all 30 first prizes.

THAT SECRET COMMITTEE ON TRADE AND THOSE SUFFERING TABLES.

to the EDITOR OF THE HERALD.

Sir,—Mr. Munro, the Premier of Victoria, has thrown a flood of light into the mysterious recesses of a secret Committee which approved those valuable labors showing how the Victorian tariff would work if made the basis of the federal tariff. In the light

of his speech at Crenshaw, the suppression of the tables has been nothing less than a gross wrong to the people of the country. Most of the resolutions of the annual Victoria League are the working of the Secret Committee on Finance and Trade, our Colonial Treasurer being one of the committee, to charge of the interests of New South

I felt that a new market—a new field—would be opened to our manufacturers, for at the present time we have to send our goods into the countries on the same basis as foreign countries. That when federation took place we would have the other countries without any outside competition—that our own masters did the job—and so I thought it was worth while.
